

AMENDMENTS

In the Abstract:

Please replace the abstract on page 47 with the following amended abstract:

This invention provides for the use of macrocyclic amines of Formula I:

for inhibition of cellular invasion or angiogenesis. Compounds and pharmaceutical compositions of this invention are useful in the treatment of conditions characterized by cellular invasion or angiogenesis, including cancer. Compounds that may be used in this invention include the motuporamines.

In the Claims:

1. (Currently Amended): A pharmaceutical composition for inhibiting cellular invasion or angiogenesis, wherein the composition comprises one or more cellular invasion or angiogenesis inhibiting compounds of formula I or II or pharmaceutically acceptable salts thereof, and a pharmaceutically acceptable carrier, wherein formula I is:
